**NEXT PICKFORD PICTURE  
A DIFFERENT TYPE**

The next Mary Pickford film to be released by the United Artists will be "Through the Back Door," according to Hiram Abrams, head of that organization. Arrangements have been made by the Torrance Theatre to have this production as the feature for Friday, June 23 and 30. This photo-feature, the basic idea for which was supplied by Little Mary herself, was prepared for the screen by Marion Fairfax well known scenarist. It is said to be quite different from anything Miss Pickford has yet attempted in that the story touches upon an angle of marital relations new to the screen. A wife brings the spectre of divorce into her home when she became a petulant, dissatisfied sort of person through grief for a child she believes dead. The problem of restoring happiness to this household falls to the lot of Miss Pickford in one of her inimitable character roles. There are innumerable complications, some of them laughable, others quite tragic—all leading up to a denouement logical and satisfying. Admirers of Mary Pickford will see her in a little girl part in this picture, and many pleasant surprises are in store for those seeking something new in the way of comedy.

**SPECIAL MEETING**

There will be a special meeting in Lomita, Monday, June 26, at 7:30 for the purpose of organizing a Masonic Club in Torrance. All Masons are invited to attend.

**KEYSTONES**

The county road department has done a good job of grading and oiling Carson street and is now at work on Wilmington east of the Harbor boulevard. Next in order will come Ocean avenue between the boulevard and Normandie.

Last Thursday the Keystone croquet club members went to Los Angeles and held their regular monthly session with Mrs. Jennings. There were about a dozen members who made the trip and all report a splendid trip.

Frank Marlin sold his property on Hoover street the first of the week. Frank's many friends hope he won't get excited and leave the Keystone district just as prosperity is settling on this community.

R. E. Vaus signed up with the Standard Oil company Wednesday morning, one of the conditions being that drilling be started without delay. This, on the eve of the Shell activities, looks like Keystone is about due for a place in the spotlight.

William Mason is finishing some very substantial improvements on his Carson street home. It will be one of the best places in Keystone when the paint job is finished.

Charles LeBoeuf is getting out plans for a new house and is also preparing to double the capacity of his poultry plant. Charles is a hustler, and that's what counts in the poultry game.

Harry Roque and family have been spending vacation time at Big Bear Lake. It's a safe bet that the fish were glad when Harry left for home.

Mr. Moseley has a very neat lunch room in operation on the Grossman place and is also getting a good start in the motor repair business. This is a good field for this sort of endeavor and we predict for him a successful future.

The Wright brothers have lately secured good positions in the Union Tool company at Torrance. The company is giving preference to local men as much as possible and a good many Keystone men are getting on the job.

William Troost has gone to San Francisco for a couple of weeks' stay but thinks Keystone is a good place to live and is firm in the belief that oil will hasten local prosperity.

Don't forget the local C. of C. meeting at Mr. Sleppy's on the night of July 1st. Election of officers for the coming year will be the chief business of the evening and will wind up with unusually good entertainment.

The Torrance Herald is now permanently located in over one hundred homes in this community and is ready to show its appreciation of this patronage by giving you every aid possible in putting Keystone on the map. Cooperation is our motto in community building. When in town drop in and get acquainted with the Herald's "dad". There is nothing like knowing the man behind your home town paper.

**SPANISH DEPARTMENT**

The growing interest in Spanish is shown in the large enrollment in the subject which is to be given a feature of the State University Southern Branch Summer Session. The close proximity to Mexico is said to be responsible for the city-wide interest in the subject.

For the July session the University makes an extraordinary cultural offering. Professor Marden, of Princeton, is to give a graduate course in the Spanish Ballad, a course in Twentieth Century Literature, and a teachers' course. Prof. Jose Pijoan, of Toronto, is to conduct a course in Spanish life and art, as well as a class in advanced composition. There will be three classes in elementary and one in advanced elementary Spanish.
